Dear Dr <name inserted by system>,

I look forward to speaking with you about how EXPAREL can help you manage your patients' postsurgical pain.

If you have time to review before our appointment, I thought you might appreciate some background information.

Here are some results from our [Soft Tissue Pivotal Trial](#). Patients receiving EXPAREL experienced

- A significant reduction in postsurgical pain through 72 hours ( $P<.0001$ )
  - A 45% reduction in opioid consumption vs placebo ( $P\le.0006$ )
  - A median time to first opioid rescue of 14.2 hours (vs 70 minutes with placebo;  $P<.0001$ )

[Click here](#) for more pivotal data.

I truly appreciate you taking the time out of your busy schedule to discuss. I'll see you soon!

Sincerely,  
<system inserts sales representative's name>
